

CLICK IT5000

Staff and customer operated digital photo micro-lab solution

Designed as a staff-operated solution the IT5000 offers photographers and retailers the ideal solution to process customer's photographs digitally, do enlargements, edit, restore and copy to copy. As standard, the Click comes with a CP9550DW-S dye sublimation printer offering 3.5"x5", 4"x6", 4.5"x6", 5"x7", 6"x8" and 6"x9" prints. However it is an expandable solution that allows the connection of additional CP9550DW-S printers, the CP3020DE printer for larger format prints, DIS900D camera for passport ID photos, as well as film and flatbed scanners. The IT5000 can be connected to a mini-lab or full processing laboratory through a LAN connection or via the internet, which is ideal for retailers who already offer photo processing but want to expand into the digital arena. The Mitsubishi IT5000 can be purchased as a desktop solution or an in a new pedestal unit which will house upto two of the CP9550DW-S printers.
